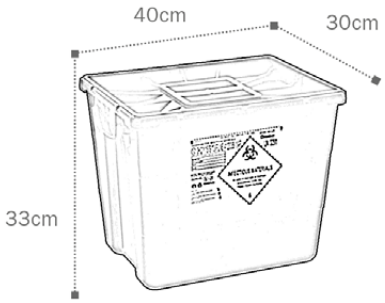
▸ **Max. load**	15 Kg
▸ **Volume**	30 L.



LOGISTIC DATA

▸ **Packaging**	Bodies stacked onto the pallet together with lids: all shrink wrapped
▸ **Pcs. x pall.**	212 pcs.
▸ **Pall. Dimensions**	120 x 80 x 225 H cm

COMPLIANCE

- Compliant to ADR
- UN Approved
- Compliant to ISO 23907
- Compliant to NFX 30-505 (AFNOR)

Prodotto da : a.b.m. Italia Spa Via Ing. Taliercio, 1 I-31024 Roncadelle di Ormelle (TV)
Tel.: +39 0422 745900 Fax.: +39 0422 205616 www.apmedical.it E.mail: info@apmedical.it

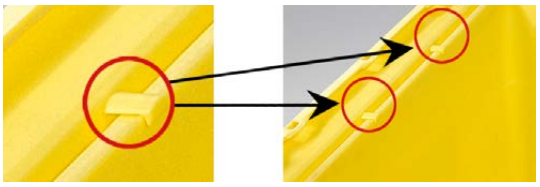
INSTRUCTIONS

- **Temporary closure:** place the solid lid on the body without pressing
- **Placement of the lid during the use**

Mono lid can be hooked to the body:

On the long side

On the short side



- **Permanent closure**

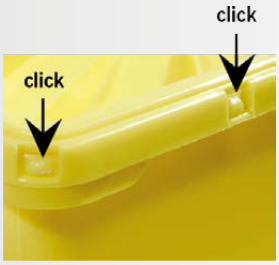
1° step:
Push on two opposite corners to firmly hook the lid on the body

2° step:
Push on the other two opposite corners

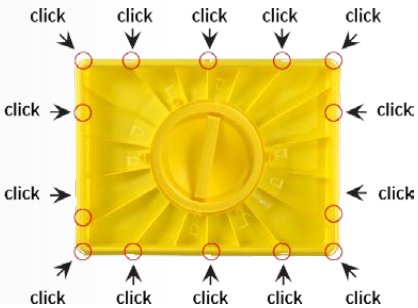
3° step:
Push on the edge of the short sides and insert the clips

4° step:
Push on the edge of the long sides and insert the clips

A sound ensures that the clip has been correctly inserted and the clip can be seen in the edge of the lid



The lid is sealed on the perimeter of the body and the container is watertight thanks to the glue on the lid



DISPOSAL

- Once full, the container must be disposed according to current law. If incinerated, the container does not release any toxic emission.

SAFETY INFORMATION

- Use the container only with its own lid
- Ensure that the lid is securely fastened
- Do not exceed the filling level
- Do not try to open again the sealed/cosed container
- Do not try to recuperate objects inside
