# FERNO CCT Range Critical Care Trolley

## A Specialist Critical Care Transfer Trolley made to your specifications

Treatment table and Ambulance Trolley in one, but due to your requirements we don't stop there. Specialist equipment such as Balloon Pumps, ECMO machines and cooling/heating systems can all be accommodated.

A bariatric version of the CCT-P the CCT-M is also available for the transfer of larger patients.

So no matter what you want or how you want it, if you need to move a high dependency or acute trauma patient for specialist treatment, you can rest assured you are doing the very best for their well-being and comfort during transportation.

### Features included as standard:

- **Versatility** – the trolley is supplied as standard with all the main bed features that are required to treat a critical patient but can be configured to hold most medical equipment & monitoring systems
- **Smoothly manoeuvrable** – push/pull handle and four pedal operated wheel/caster locks
- **Protects the patient** – combining the use of an anti-bacterial pressure-reducing mattress, a comprehensive harness and strap system, and moulded trolley cot-sides
- **Easily adjusted** – backrest up to 75° via assisted lift with leg elevation included as standard
- **Static shock shielded** – anti-static wheel protection
- **Easy to clean and maintain** – ask about our comprehensive service contract
- **Enhanced safety** – standard CCTs are tested and certified to BS EN 1789
- **Locked down during transfer** – compatible with the Ferno Two Part Locking System
