FERNO Paraguard Excel Stretcher

Depend on NATO's stretcher of choice for search and rescue operations

If you're looking for an excellent all-round proven search and rescue stretcher, the Paraguard Excel is without equal. Compact and easy to use, with a design that's perfect for both horizontal and vertical lifting, it's little wonder that the design has won the approval of worldwide authorities including NATO.

- **Ideal for use in awkward spaces** – designed for use and performs highly effectively in collapsed buildings, industrial accidents or confined spaces.
- **Easy to transport** – Slot in carrying handles fix onto the head and foot ends of the stretcher allowing two rescuers to carry the casualty
- **Quick and simple to use** – the colour-coded strapping system easily secures the chest, arms, thighs and lower legs.
- **Safe and secure** – a three-point non-slip forehead strap holds the head in place, with a figure of eight strap for the feet
- **Hygienic and easily maintained** – impervious to oil, water and grease, rot-resistant and with easy-clean fully heat sealed flaps to enhance infection control
- **Recognised and proven** - approved for use by many authorities including NATO 6530-99-446-9403
- **Easy to store** - for storage and ease of transport, the stretcher packs into a versatile valise back pack, which is supplied as standard

Options and Accessories

- **Lifting sling for easier horizontal lifting** – attachable four-point lifting sling with lightweight karabiners and 227kg max load
- **Shoulder harness to help distribute weight** – vest-style, to attach onto the Paraguard lifting handles
- **Foul weather sheet to protect the casualty** – wraps over the patient for use in adverse weather conditions
