Model 24 miniMAXX Trolley®

**Industry-leading load capacity
combined with extra manoeuvrability
for confined conditions**

Ferno understands that funeral and mortuary professionals often need to use a high capacity trolley, but sometimes lack the space to easily accommodate wider models. With its 450kg load limit, the narrow-specification **miniMAXX** provides the perfect solution.

This highly manoeuvrable trolley possesses the innovative features of the **24MAXX** – including genuinely independent legs – **now redesigned to a narrower width for easy handling and storage in confined conditions.**

- **Exceptionally manoeuvrable** – reduced width (58cm) and independent legs with multi-level adjustment
- **Reduce risk of operator injury** – easy handling, even at maximum load capacity 450kg
- **Ready to use with existing equipment** – compatible with most Ferno covers and pouches
- **Distinguished and durable finish** – in black powder coated gloss
- **Extremely easy to use** – with side lift handles, side rails, independent controls and smooth, sturdy wheel locks
- **Accessories supplied as standard** – includes 1" (2.5cm) thick mattress and two two-piece black restraints
